Mr Tom Lynch
General Secretary
CPSU (SPSFT) Inc.
GPO Box 54
HOBART TAS 7001

Dear Mr Lynch

As a past member of the CPSU (SPSFT) and advocate of public servants I am proud to commit to each of the key principles set out in your Public Services @ Work document.

I worked in the Tasmanian Public Service from 1996 to 2008 in a variety of Departments including: Parliament House, Treasury and Finance; Infrastructure, Energy and Resources; and Health and Human Service.

During my time as a public servant I participated in a number of departmental restructures, cost saving activities and internal reforms. From this experience I truly understand the reasoning and importance of the principles that you have set out.

If elected, I commit to working with my ALP colleagues in listening to and consulting with the CPSU (SPSFT) and public servants to continually improve working conditions, job satisfaction; and policies and services for the Tasmanian public.

I believe that a majority Bartlett Government is the best choice for your membership and the long-term economic prosperity of Tasmania. This is clearly evidenced by its tremendous track record.

Under a Tasmanian Labor Government working conditions and resourcing of our public service have improved and repaired the damage left behind by the previous Liberal Government.

I hope to see a majority Labor Government returned in March that will work with you and your membership in building a stronger Tasmania.

Kind regards

K Churchill
